1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In Claim 5, lin2, delete "(original)" to correct a typographical error.

In Claim 7, line 1, insert -- of (I)/(II) + (III) -- after "molar ratio" to clarify the claim language.

2. The following is an examiner's statement of reasons for allowance:

The present invention differs from the prior arts in that the prior arts fail to disclose a liquid crystal polymer comprising naphthalenedicarboxylic acid of formula (III) and having melting point $\geq 400^{\circ}\text{C}$. The references polymers have melting point $\geq 400^{\circ}\text{C}$ without naphthalenedicarboxylic acid (US '276, JP '402 and JP '403) or the polymers have naphthalenedicarboxylic acid but melting point $< 400^{\circ}\text{C}$ (US '654, '950 and '419).

The objection of claims 4-9 in the previous Office Action was a mistake. The objection has been withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
